

Transition to College

What skills will you gain?

Thinking about college but want to know more about what happens on our courses and what coming in to college is actually like?

This course is designed for you if you are still at school and are interested in any of our Gateway to Skills and Education courses. You will create a personalised timetable for college classes that interest you. This personalised timetable will fit in with your school timetable and you can take as many classes as you like.

This will allow you to build your confidence at your own pace while you decide about the future.

What units will I study?

After finding out what your interests are, you will have the chance to try out various classes such as: construction, cookery, music, computing, fashion, outdoor adventure and childcare.

We will also work with you to improve your life skills, which will make you more college and work ready.

Entry Requirements?

There are no formal entry requirements but you will have had a chat with your guidance teacher to discuss what will best suit you.

How and where will I study?

You will come to our college centre in Fort William.

How will I be assessed?

You will be assessed in your class as you work along with your fellow students.

Where will it take me?

You could consider coming to college to study on a similar course when you leave school.

How do I apply?

You will apply online. Please speak to your school guidance teacher for more information.
