

Computing Science

Digital Media Animation and Web Design Fundamentals

What skills will you gain?

The combination of units in this course will give you the opportunity to explore the creative side of computing while acquiring complex technical skills.

Digital Media Animation will cover the principles of computer animation and the hardware and software required.

Learn about the fundamentals of animation, focusing on 2D animation and introducing 3D animation.

Web Design Fundamentals focuses on technical skills in the creation of websites, animation, graphics and interactive media, but also emphasises the importance of the design process and soft skills such as interviewing and responding to feedback.

What units will I study?

NPA Digital Media Animation at (SCQF Level 5)

NPA Web Design Fundamentals (SCQF Level 5)

Entry Requirements?

You should have been working at level 4 and be ready to progress towards level 5.

How and where will I study?

One day per week with a college lecturer in either your school or college centre depending on location.

How will I be assessed?

You will be assessed through projects and small assignments.

Where will it take me?

On successful completion, you might consider our full time college course:
NC in Computing with Digital Media at SCQF level 5 or level 6.

How do I apply?

Application is online. Please speak to your guidance teacher.
